DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-91** are allowed.
2. The following is an examiner's statement of reasons for allowance:

- With regard to **claims 1, 20, 38, 56 and 75**:

These claims are allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious a method of forming a waveguide comprising forming a waveguide and an overetched underclad layer of the waveguide having stress gradients, in combination with the rest of the claimed limitations.

- With regard to **claims 2-19, 21-37, 39-55, 57-73 and 75-91**:

These claims are allowable over the prior art of record because they depend on allowable claims 1, 20, 38, 56 and 75.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, filed 26 November 2004, with respect to claims 1-55 have been fully considered and are persuasive. The rejection of claims 1-55 has been withdrawn.

4. Newly filed claims do not add new material and are allowed as described above.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following references teach cores on top of overetch cladding layers: Bonar et al (US 2004/0247276 A1), Lee et al (US 2004/0213535 A1), Childs et al (US 2004/0170368 A1).
